By Signing below, I certify that:

I have received the current Town of Wethersfield Ordinance Chapter 139 regulating excavations within the Town right-of-way and agree to complete all improvements in accordance with said Ordinance and all Town standards, specifications and details. I am aware that I must obtain a license and permit prior to commencing work within the Town right-of-way and that failure to obtain these documents is a violation of said Ordinance, which may subject me to fees that are double the standard rates, and a fine of \$100.00 for every day the violation continues, per Sections 139-18 and 139-24, respectively.

I have received the current Town standard details pertaining to work within the right-of-way that include pavement restoration; bituminous, concrete and granite curb; concrete sidewalk, ramps and associated notes; bituminous and concrete driveway aprons; restoration of lawn areas; erosion controls and other related work. I agree to the following:

- All traffic control procedures, appurtenances and signs shall conform to requirements outlined in the Manual on Uniform Traffic Control Devices (MUTCD), latest edition.
- All work shall be performed in accordance with the Public Rights-of-Way Accessibility Guidelines (PROWAG), particularly work related to sidewalk and sidewalk ramps along pedestrian routes. Pedestrian access through work areas must be maintained at all times or pedestrian detour routes must be approved by the Town and clearly marked.
- No work shall cause discharge of sediment, debris or pollutants onto adjacent properties, or into drainage systems, wetlands, watercourses and other water bodies.

I am aware that the \$10,000.00 minimum bond I have provided will be held by the Town for a period not less than two (2) years and that I must make all payments to keep said bond in effect throughout this period until its cancellation is approved by the Town in writing.

I am responsible to maintain insurance coverage to limits specified in Town of Wethersfield Ordinance Section 139-18 and will provide the Town with updated insurance certificates at least 10 days prior to their expiration date.

I am aware that failure to provide required inspection notices may result in revocation of this license. If all permanent restoration work is not completed by the expiration dates listed on permits issued under this license, I understand that the Town may complete this work and all associated costs including administrative fees as calculated by the Town will be charged to me.

I understand that failure to complete all work in accordance with Town requirements may result in the Town withholding issuance of licenses and permit to work within the local right-of-way in the future.
